PROFESSIONAL SUMMARY

Computer Science Engineering student (Galgotias University, B.Tech, graduating 2027) with a strong foundation in Java (OOP), SQL, and DBMS, and hands-on full-stack development experience using Node.js, Express.js, and MongoDB. Comfortable working across the stack — from REST API design and relational/NoSQL data modeling to cloud deployment — with practical exposure to Agile workflows and version control. Seeking a Graduate Engineer Trainee role to apply and grow these skills in an enterprise IT environment.

EDUCATION

Galgotias University — Greater Noida, India

June 2023 – August 2027

Bachelor of Technology in Computer Science Engineering; GPA: 6.99/10

TECHNICAL SKILLS

Languages: Java (OOP), Python, JavaScript, SQL, HTML, CSS

Core CS: Data Structures & Algorithms, DBMS, OOP, Agile Methodology

Databases: SQL, MongoDB, MongoDB Atlas, SQLite

Backend: Node.js, Express.js, REST APIs, Socket.IO, Multer, dotenv

Tools & Platforms: GitHub, Render.com, VS Code, Google Workspace

PROJECTS

ServeMore: Food Sharing Platform

GitHub

- Architected a full-stack platform with role-based access control (RBAC) for two distinct user roles — Donors and Recipients — demonstrating applied OOP and system design principles.
- Integrated Google OAuth 2.0 (Passport.js, express-session) for secure authentication and persistent session management.
- Designed and modeled the underlying MongoDB data schema; engineered 10+ REST API endpoints (Express.js, Multer) to support the Donor Dashboard, activity feed, and listing management.
- Added real-time Socket.IO notifications, search/filter, dark mode, and a fully mobile-responsive UI.

AI Interview Prep Platform

GitHub

- Built a full-stack platform generating role-specific interview questions and instant feedback from a resume or job description.
- Implemented modular REST API routing (Express.js) with file uploads and environment-secured API credentials.
- Delivered a responsive HTML/CSS single-page frontend with clean, reusable component structure.

EXPERIENCE

EduSkills Foundation — Google Collaboration Virtual Program

- Completed a structured 3-month virtual internship (EduSkills x Google) covering digital tools, industry workflows, Agile practices, and modern tech fundamentals.
- Applied learnings to personal projects, improving development velocity and adoption of production-grade coding practices.

CERTIFICATIONS

- Java for Beginners — Guvi
- Database Fundamentals — Oracle Academy
